Last Trading Day	Three Business Days prior to the last Business Day of the delivery month The last weekday of December is not considered a Business Day, unless otherwise determined and announced by the Exchange.

# Contract Specifications

Deliverable Instruments	<p>Texas RECs eligible for delivery are those issued by ERCOT which have been generated from wind energy production technology in Texas and having a Back Half year designation that corresponds to the specified vintage year of the expiring contract. REC Offsets are not deliverable.</p> <p>RECs delivered must be from facilities that have an active Tracking Attestation form on file with the Center for Resource Solutions ("CRS"), in connection with CRS's administration of its Green-e® certification programs. The Tracking Attestation form must cover the generation period of the RECs. Maintenance of an active Tracking Attestation form does not guarantee that a facility meets the requirements of any Green-e® renewable energy standards and does not mean that a facility's supply is Green-e® Certified. The Green-e® name and symbol are a registered trademark owned and administered by Center for Resource Solutions (CRS). For more information about Tracking Attestation forms and Green-e® certification, please visit the Green-e® website at <a href="http://www.green-e.org">www.green-e.org</a>. To confirm that a facility has an active Tracking Attestation form on file, please contact the Center for Resource Solutions at <a href="mailto:verification@green-e.org">verification@green-e.org</a>.</p> <p>For contracts which are designated as Back Half or BH, RECs acceptable for delivery are those that were issued for generation occurring in the last six calendar months of the specified vintage year.</p> <p>RECs must be delivered from a facility meeting the New Date requirements for the year of generation and the following year. New Date requirements are specified on <a href="http://www.green-e.org">www.green-e.org</a> for CRS Lister Facilities.</p>
