## Texas Renewable Energy Certificate from CRS Listed Facilities Back Half Specific Future

## **Contract Specifications**

Description	Physically delivered Texas Renewable Energy Certificates (REC) issued by the ERCOT Renewables Registry for qualifying wind energy production from facilities in Texas which are listed with the Center for Resource Solutions (CRS) as an element of CRS' administration of its Green-e® certification program.
Contract Symbol	ТВН
Settlement Method	Physical delivery
Contract Size	1000 MWh representing 1000 Texas RECs
Currency	USD
Minimum Price Fluctuation	The price quotation convention shall be One cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type
Minimum Price Fluctuation	

Texas RECs eligible for delivery are those issued by ERCOT which have been generated from wind energy production technology in Texas and having a Back Half year designation that corresponds to the specified vintage year of the expiring contract. REC Offsets are not deliverable.

RECs delivered must be from facilities that have an active Tracking Attestation form on file with the Center for Resource Solutions ("CRS"), in connection with CRS's administration of its Green-e® certification programs. The Tracking Attestation form must cover the generation period of the RECs. Maintenance of an active Tracking Attestation form does not guarantee that a facility meets the requirements of any Green-e® renewable energy standards and does not mean that a facility's supply is Green-e® Certified. The Green-e® name and symbol are a registered trademark owned and administered by Center for Resource Solutions (CRS). For more information about Tracking Attestation forms and Green-e® certification, please visit the Green-e® website at www.green-e.org. To confirm that a facility has an active Tracking Attestation form on file, please contact the Center for Resource Solutions at verification@green-e.org.

For contracts which are designated as Back Half or BH, RECs acceptable for delivery are those that were issued for generation occurring in the last six calendar months of the specified vintage year.

RECs must be delivered from a facility meeting the New Date requirements for the year of generation and the following year. New Date requirements are specified on www.green-e.org for CRS Lister Facilities.
