Directors' report

The directors present the directors' report and audited financial statements for ICE Clear Netherlands B.V. ('the Company' or 'ICNL') for the year ended 31 December 2025.

Principal activities and objective

The Company's ultimate parent is Intercontinental Exchange, Inc. ('ICE'), a corporation registered in Delaware, United States. Related companies in these financial statements refer to members of the ultimate parent company's group of companies (the 'Group'). The Company is regulated and supervised in the Netherlands by the Authority for the Financial Markets ('AFM'), the Dutch Central Bank ('DNB') and the European Securities and Markets Authority ('ESMA'), as a Central Counterparty ('CCP') under the European Market Infrastructure Regulation ('EMIR').

ICE clearing houses deliver stability and risk management across global markets. With strong governance, proven risk frameworks and capital, our clearing houses bring transparency, discipline and security to markets around the world. The Company, as a clearing house in Europe, provides clearing services in respect of equity, equity index and interest rate derivatives asset classes.

Financial results and review of the business

The Company made a loss before tax of €3,062,000 for the year ended 31 December 2025 (2024: €2,295,000) generating revenue of €188,000 (2024: €515,000). No dividends were declared in the General Meeting of Shareholders or paid during the year (2024: €nil).

Highlights 2025

In July 2018 the Company received regulatory authorisation to clear equity and equity index derivatives traded on ICE Endex Markets B.V. ('ICE Endex'), an ICE Group Regulated Market operating in the Netherlands. Since December 2018 the Company has provided clearing services for equity and equity index derivatives traded on ICE Endex. During the year, the Company has cleared ICE Endex trades executed on the Block Trade Segment.

In November 2025, ICE Futures Europe, an ICE Group exchange, announced the launch of two new EUR short-term interest rate ('STIR') futures contracts based on the 3M Euribor rate and the Euro Short-Term Rate ("ESTR") to be cleared by the Company following regulatory approval in August 2025. The new contracts were admitted to trading in December 2025. In November 2025, through a contribution from ICE Futures Europe pursuant to its clearing services agreement with the Company, the Company increased its own resources contribution to the guaranty fund by €8,585,000, reflecting the alignment of risk sharing between ICE Futures Europe, the Company and its members.

Strategy and forecast for 2026 and beyond

In 2026 and beyond, the Company plans to continue to provide clearing services in interest rate derivatives, e.g. of two new EUR STIR derivatives traded on ICE Futures Europe. The Company will continue to evaluate further expansion of clearing services, building on its foundation of strong governance, proven risk frameworks and capital. The Company directors believe that the Company's clearing services bring additional transparency, discipline and security to the European marketplace.

The Company will continue to work with other ICE Group entities, Clearing Members, Clients and Regulatory Authorities as appropriate in view of relevant economic, regulatory and geopolitical events.

Regulatory and EMIR

The Company is authorised under EMIR to provide clearing services for equity and equity index derivative and interest rate derivative markets of Multilateral Trading Facilities ('MTFs') and/or Regulated Markets ('RMs') and/or Over-The-Counter ('OTC') in accordance with the Markets in Financial Instruments Directive ('MiFID').

Since becoming EMIR authorised in 2014, the Company has complied with the annual obligation to be re-assessed by the regulatory authorities regarding its EMIR authorisation. The Company prepares and publishes its periodic self-assessment based on the PFMI Disclosure Framework of CPMI IOSCO.

Brexit

The U.K. left the EU on 31 January 2020 on the basis of the Withdrawal Agreement and the associated Political Declaration, commonly known as 'Brexit'. In January 2025, the European Commission adopted a decision to extend temporary equivalence for UK CCPs for a further three years until 30 June 2028. This temporary equivalence regime for U.K. CCPs was put in place to make sure there was no cliff edge effect, with the intention that the time is used by the market to allow for a controlled transition of any euro

ICE Clear Netherlands B.V.**Registered number:** 51976196**Directors' report**

denominated products from the U.K. to the EU if required. In addition, the U.K. has a Temporary Recognition Regime ('TRR') for non-U.K. CCPs which is applicable to the Company and was extended until 31 December 2027. Under the TRR the Company is permitted to provide clearing services in the U.K. for equity and equity index derivatives pending approval of its application for a U.K. CCP license. In December 2023 the Company was granted permanent settlement finality designation under the U.K. Settlement Finality Regulations.

Absent a license in the U.K. or further extension of the current temporary equivalence determination beyond 30 June 2028, it would be unlawful for ICNL to provide clearing services to U.K.-based Clearing Members and regulated markets. The overall impact of this outcome is being monitored, and a Group wide scenario analysis has been performed and detailed contingency plans developed. This analysis will allow the Company to timely address potential implications to its business, as appropriate.

Risk management

The Company employs its own risk management group for its activities. The activities are organised in a "Three-Lines-of-Defence" model. A distinction is made in this model between the First Line functions (business and operations) that directly own and manage risk, versus the Second Line functions (Enterprise Risk Management, Legal & Compliance, and others) that oversee and challenge the First Line. The Third Line (Internal Audit) provides independent assurance of the functions of the First and Second Lines.

Internal audits are regularly performed on the Company's core processes as well as on certain ICE intra-group services provided to it. Business risks are evaluated regularly as well, applying a common methodology from the wider ICE Group. In parallel, the Company has its own compliance function to ensure that it meets its own regulatory and legal obligations at all times.

The Company has a policy framework for its internal control processes and this framework reflects the extremely low appetite the Company has for operational risk and errors. The management team meets on frequent basis to discuss operational risk, the mitigations in place and to consider potential improvements to the control environment. In 2025, the highest inherent risks to the Company were considered to be from Cyber risk, specifically, Economic Sabotage (destructive attacks to undermine confidence in financial markets) and Asset Theft (cyber enabled theft of cash/securities collateral assets). These risks (amongst others) are monitored on a continuous basis and mitigated through control measures by the ICE Group as well as by several Committees within the governance structure of the Company. The manifestation of risks of this nature could potentially have a significant negative impact on Company profits and its reputation. The Company has dedicated resources focused on addressing these risks.

Further details of risk management objectives and policies have been disclosed in the notes to the financial statements and can be found in note 19.

Global market conditions

The Company can be affected by global economic conditions, including macroeconomic conditions and geopolitical events and conflicts. Recent macroeconomic conditions, including changes in interest rates, inflation and significant market volatility, changes in tariffs and trade policies along with geopolitical concerns, have created ongoing uncertainty and volatility in the global economy and resulted in a dynamic operating environment. From an operational perspective, the Company has not been directly impacted as a result of the ongoing events in Ukraine, the Middle East and surrounding regions.

The Company expects the macroeconomic environment to remain dynamic in the near-term, and the Company continues to monitor macroeconomic conditions, including interest rates, inflation rates, changes in tariffs and trade policies, market volatility, prolonged U.S. government shutdowns, geopolitical events and military conflicts and repercussions from, and the impact that, any of the foregoing may have on the global economy and on its business.

Going concern

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. In reaching this determination they have considered the cash flows, capital resources of the Company and capital contribution received in 2025, alongside the events and topics discussed above. Thus, the Directors continue to adopt the going concern basis of accounting in preparing the annual financial statements.

ICE Clear Netherlands B.V.

Directors' report

Outlook

The Directors do not foresee any change in the Company's principal activities in the near future.

Corporate social responsibility

All statutory directors have the skills, qualifications, experience and expertise that are essential to meet their responsibilities and obligations. The Company will continue to strive for an adequate and balanced board composition in future appointments, by taking into account all relevant selection criteria including but not limited to gender balance, executive experience.

The average number of employees during 2025 was 10. The Company is committed to providing a comprehensive and competitive benefits package to ensure employees' health, well-being and financial security for all employees including executive directors. All employees of the Company are subject to the code of conduct of ICE.

Post balance sheet events

On 21 April 2026 the Company's immediate parent company, IntercontinentalExchange Holdings, made a capital contribution to the Company, resulting in an increase in share premium of €5,000,000.

Directors

The executive and non-executive directors of the Company who served during the year and up to the date of authorisation of these financial statements are as follows:

M. Addison (appointed on 15 October 2025 and resigned on 4 December 2025)

E. Bons

P. Röling (resigned on 15 October 2025)

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

1 Accounting policies for the financial statements

Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU as they apply to the financial statements of the Company for the year ended 31 December 2025 and applied in accordance with Part 9 of Book 2 of the Dutch Civil Code. The accounting policies which follow set out those policies which apply in preparing the financial statements for the year ended 31 December 2025. Where accounting policies are not specifically mentioned below, reference should be made to the IFRS as adopted by the European Union. The financial statements are prepared on a historical cost basis. The financial statements are expressed in Euros and rounded to the nearest thousand, unless otherwise stated.

Changes in accounting policies and disclosures

The Company reassessed its accounting policy with respect to the classification of short-term investments within cash and cash equivalents. Investments with original maturities of more than three months and up to one year were previously included within cash and cash equivalents in the statement of financial position. The Company has now elected to present such investments separately as short-term investments. Accordingly, €12,260,000 previously reported within cash and cash equivalents as at 31 December 2024 has been reclassified to short-term investments, and the comparative cash flow statement has been updated to reflect €12,260,000 as a purchase of short-term investments within investing activities, with a corresponding reduction in the closing cash and cash equivalents balance. There is no impact on total assets, net assets, or the reported loss for the year ended 31 December 2024.

Foreign Currency

The euro (EUR) is the functional and presentational currency of the Company. Transactions in foreign currencies are recorded at the foreign exchange rate applying at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the Statement of financial position date are translated to Euros at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the Statement of comprehensive income. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Euros at the foreign exchange rates ruling at the dates the fair values were determined.

New/amended standards

The accounting policies adopted are consistent with those of the previous financial year with the exception of the accounting policy change noted above. In the current financial year, the Company has adopted all the new and revised standards which are effective for annual periods beginning on or after 1 January 2025.

The adoption of new standards and interpretations did not have a material effect on the financial performance or position of the Company.

Standards issued but not yet effective

Standards and interpretations issued but not yet effective as at the date these financial statements were authorised are listed below. The Company will adopt these standards when they become effective.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Description	Effective for annual periods beginning on or after
Amendments to IFRS 9 and IFRS 7: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity	1 January 2026
Annual Improvements to IFRS - Volume 11	1 January 2026
IFRS 18 - Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19 - Subsidiaries without Public Accountability: Disclosures	1 January 2027
Amendments to IFRS 10 and IFRS 1-28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

With the exception of IFRS 18 as referred to below, directors expect that the adoption of the standards above will have no material impact on the financial statements in the period of initial application.

IFRS 18 - Presentation and Disclosure in Financial Statements

IFRS 18 introduces new requirements for presentation within the statement of comprehensive income, including specified totals and subtotals. It also requires disclosure of management-defined performance measures and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements and the notes. Narrow scope amendments have been made to IAS 7 Statement of Cash Flows, and some requirements previously included within IAS 1 have been moved to IAS 8, which has been renamed IAS 8 Basis of Presentation and Disclosure in Financial Statements.

The impact of these changes on the financial statements is currently being evaluated. The Company does not expect to adopt this standard early and plans to adopt it in the 2027 annual financial statements.

Critical judgements in applying the Company's accounting policies

In the application of the Company's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Management is of the opinion that any instances of application of judgements are not expected to have a significant effect on the amounts recognised in the financial statements.

Key sources of estimation and uncertainty

Management believes that there are no key assumptions made concerning the future and other key sources of estimation uncertainty at the balance sheet date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Significant accounting policies

The significant accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the contractual cash flow characteristics of the asset. The three measurement categories for classification of financial assets are:

(i) Amortised cost

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

(ii) Fair value through other comprehensive income ("FVOCI")

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI.

Financial assets measured at FVOCI are subsequently measured at fair value. Any gains or losses from changes in fair value of the financial assets are recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is de-recognised.

(iii) Fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a financial asset that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss in the period in which it arises.

De-recognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for financial assets is recognised in profit or loss.

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

The Company's financial liabilities include accruals and other payables and amounts due to related companies.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

Impairment of financial assets

The Company recognises an allowance for expected credit losses ("ECLs") for all financial assets not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For cash at bank, ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade and other receivables the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when the relevant counterparty has failed to settle the contractual payments by the contractual due date. The contractual due date varies depending on the nature of the financial asset. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Trade and other receivables

Trade and other receivables are stated at their amortised cost less impairment losses. Trade and other receivables are initially recognised at their fair value and subsequently measured at amortised cost using the effective interest rate method. The Company assesses impairment of trade and other receivables by recognising an allowance for ECLs in accordance with the ECL policy described above.

Member balances: cash relating to margin and guaranty fund contributions

Cash collateral paid by clearing members to the Company to cover their margin and guaranty fund requirements is included on the Statement of financial position as part of "Member balances: cash relating to margin and guaranty fund contributions" as an asset with a corresponding liability.

Non-cash collateral provided by clearing members to cover their margin and guaranty fund requirements is not recorded on the Company's Statement of financial position unless the Company has sold the asset or repledged it or in the event of a member default where the member is no longer entitled to redeem the pledged asset. In the case of a sale or repledging, the Company records on its Statement of financial position the proceeds of the sale together with a liability representing the obligation to return the non-cash collateral. In the event of a member default, the Company recognises the collateral as its asset initially measured at fair value or, if it has already sold the collateral, derecognises its obligation to return the collateral.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

The interest income and associated interest expense payable to clearing members is recognised on a time-apportioned basis.

Short-term investments

Investments with a maturity greater than three months and less than one year are designated as short-term investments and are recognised at amortised cost with amortisation included in interest income in the Statement of Comprehensive Income. The Company assesses impairment of short-term investments by recognising an allowance for ECLs in accordance with the ECL policy described above.

Cash and cash equivalents

Cash and cash equivalents consist of cash and balances with banks and short-term, highly liquid investments with less than three months original maturity.

Employee benefits

(i) Defined contribution plans

For defined contribution plans, the Company pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Obligations for contributions to defined contribution pension plans are recognised as an expense in the Statement of comprehensive income as incurred.

(ii) Share-based payment transactions

The cost of employees' services received in exchange for the grant of rights under ICE group equity-based employee compensation schemes is measured at the fair value of the equity instruments at the date of the grant and is expensed over the vesting period. This expense in the profit and loss account is offset by the recognition of a capital contribution in reserves. In the case of Employee Stock Purchase Plans ('ESPP') and options granted, fair value is measured using the Black-Scholes pricing model. Under ESPP, employees may purchase ICE shares at a price equal to 85% of the lesser of the fair market value of the shares on the first or the last trading day of each offering period. A share-based payment expense is recognised for the 15% discount given to participating employees.

Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. These are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Revenue recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Clearing and delivery fees

Clearing fees are recognised, net of exchange incentives if appropriate, when services are rendered.

Finance income and costs

Finance income and costs relate to the costs of transactions and interest receivable and payable. Interest is calculated using the effective interest rate method.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Income Tax

The tax expense for the period comprises current and deferred income tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in Other Comprehensive Income, in which case it is recognised in equity. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the Statement of financial position date in the countries where the company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Going concern

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. In reaching this determination they have considered the cash flows and capital resources of the Company, alongside events which have been discussed in the Directors' Report. Thus, the Directors continue to adopt the going concern basis of accounting in preparing the annual financial statements.

2 Revenue from contracts with customers

The Company derives its revenue from contracts with customers for the transfer of services over time and at a point in time in the following major product lines:

	2025	2024
	€'000	€'000
Net clearing and delivery fees	5	7
Interest income on margin and guaranty fund contributions	66	114
Interest expense on margin and guaranty fund contributions	(61)	(106)
Revenue from contracts with customers	<u>10</u>	<u>15</u>
Intergroup	178	500
Total revenue	<u>188</u>	<u>515</u>

3 Operating expenses

	2025	2024
	€'000	€'000
Compensation and benefits (note 7)	2,443	2,399
Technology costs	38	34
Professional services	278	222
Intercompany charges	552	404
Dues and subscriptions	68	54
Selling, general and administrative costs	129	108
Foreign exchange losses	7	10
	<u>3,515</u>	<u>3,231</u>

Professional services costs include auditor's remuneration for audit services of €50,000 in 2025 (2024: €49,000). There were no non-audit services provided by the Company's auditor during the current year (2024: none).

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

4 Interest income

	2025	2024
	€'000	€'000
Bank interest income	4	8
Other interest income	274	426
	<u>278</u>	<u>434</u>

Other interest income primarily relates to interest on regulatory capital.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

5 Finance costs

	2025	2024
	€'000	€'000
Other interest expense	13	13

6 Remuneration of key management personnel of the Company

	2025	2024
	€'000	€'000
Short-term benefits	519	589
Post-employment pension and medical benefits	58	63
Total compensation fees paid to key management personnel	577	652

Key management personnel consist of the executive directors of the Company.

7 Compensation and benefits

The average number of persons employed by the Company during the year, including the directors, was as follows:

Staff members	2025	2024
	Number	Number
Monthly average number of staff members	10	10

The aggregate payroll costs of these persons were as follows:

Compensation and benefits	2025	2024
	€'000	€'000
Wages and salaries	1,658	1,663
Share-based payment transactions	202	182
Social security costs	111	106
Pension costs	227	226
Other personnel costs	245	222
	2,443	2,399

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

8 Income tax

The major components of income tax expense for the year ended 31 December are:

Recognised in the statement of profit or loss

	2025	2024
	€'000	€'000
Total current income tax	—	—
Total deferred tax	—	—
Income tax expense in the statement of profit or loss	—	—

Tax payable

	2025	2024
	€'000	€'000
Tax payable at 1 January	—	—
Tax payable at 31 December	—	—

There is no tax payable (2024: €nil) in respect of the current year as the Company had tax losses for the year.

	2025	2024
	€'000	€'000
The actual tax charge differs from the expected tax charge as follows:		
Profit before tax	(3,062)	(2,295)
Corporation income tax at 25.8% (2024: 25.8%)	(790)	(592)
<i>Effects of:</i>		
Expenses not deductible for tax purposes	54	49
Unutilised tax losses and other timing differences not recognised	736	543
Income tax expense in profit or loss	—	—

The Company had an unrecognised deferred tax asset relating to unutilised tax losses and temporary differences in respect of fixed assets of €21,796,000 (2024: €18,943,000). The Company would benefit from these in the event that it generates taxable profits in the future.

On 19th December 2023, the Minimum Tax Act 2024 was approved by the Dutch Senate and is applicable for financial years starting on or after 31 December 2023. Under the legislation, the Company would be required to pay, in the Netherlands, a top-up tax on profits in each jurisdiction in which the Company operates that are taxed at an effective tax rate of less than 15 per cent. The Company is in scope of the legislation and has performed an assessment of its potential exposure to Pillar Two income taxes. The assessment of the potential exposure to Pillar Two income taxes is based on the most recent tax filings, country-by-country reporting and financial statements. Based on the assessment performed, the Pillar Two effective tax rates on profits in all jurisdictions in which the Company operates are above 15% resulting in the Company having no exposure to Pillar Two income taxes in 2025. During 2025 the Company did not have any profits.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

9 Trade and other receivables

	2025	2024
	€'000	€'000
Amounts due from group undertakings	92	154
Prepayments	117	124
Accrued income	—	1
	<u>209</u>	<u>279</u>

Further details of amounts due from group undertakings can be found in Note 20.

10 Member balances: cash relating to margin and guaranty fund contributions

	2025	2024
	€'000	€'000
Guaranty fund contributions	<u>3,000</u>	<u>3,000</u>

Clearing members are required to place initial and variation margin funds to cover their outstanding positions. The margin can take the form of either cash or non-cash collateral or a combination of the two. The contributions made to these margin accounts and to the guaranty fund are recorded in the Statement of financial position as current assets with corresponding liabilities to the clearing members that contributed them. Margin amounts will fluctuate over time as a result of, among other things, the extent of open positions held at any point in time by market participants in contracts and the margin rates then in effect for such contracts. As there is no open interest as at 31 December 2025 there are no margin contributions.

No non-cash collateral was held in respect of the margin and guaranty fund contributions as at 31 December 2025 (2024: €nil).

11 Guaranty fund: own contribution

	2025	2024
	€'000	€'000
Guaranty fund: own contribution	<u>10,460</u>	<u>1,875</u>

The Company's own contributions to its guaranty fund ('SITG') are held in accordance with EMIR and could be used in the event of a clearing member default where the amount of the defaulting clearing member's original margin and guaranty fund contributions are insufficient. The Company's own contributions to the guaranty fund are deposits held at central banks or invested in government securities.

In November 2025, through a contribution from ICE Futures Europe pursuant to its clearing services agreement with the Company, the Company increased its own resources contribution to the guaranty fund by €8,585,000, reflecting the alignment of risk sharing between ICE Futures Europe, the Company and its members. These amounts form part of the €10,460,000 and would be utilised pro rata along with the existing contributions in the event of default. The exchange contributions are subject to a minimum of \$10,000,000 and are re-assessed at least annually.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

12 Guaranty fund: second own contribution

	2025	2024
	€'000	€'000
Guaranty fund: second own contribution	245	231

The Company's second contribution to its guaranty fund (SSIG') is held in accordance with the CCP Recovery and Resolution Regulation, as a recovery tool to cover potential default or non-default losses. The Company's second own contributions to the guaranty fund are deposits held at central banks or invested in government securities.

13 Short-term investments

	2025	2024
	€'000	€'000
Short-term investments	3,209	12,260

Short-term investments relate to investments in government securities which form part of the Company's regulatory capital, see note 14. The 2024 balance of €12,260,000 represents amount reclassified from cash and cash equivalents, see Note 1 for further details.

14 Cash and cash equivalents

	2025	2024
	€'000	€'000
Cash and cash equivalents	8,213	1,715

The 2024 cash and cash equivalents balance has been restated to reflect the reclassification of €12,260,000 to short-term investments, see Note 1 for further details.

The Company, as a continental European derivatives clearing house, is regulated and supervised in the Netherlands by the AFM, DNB and ESMA and is required to maintain regulatory capital equal to various solvency and risk-based calculations, subject to EMIR minimum regulations.

As of 31 December 2025 the regulatory capital, including the Company's own resources contributions to the guaranty fund (note 11 and 12), short-term investments (note 13) and cash and cash equivalents were €18,955,000 (2024: €10,356,000). Regulatory capital forms part of the short-term investments and cash and cash equivalents balance, with the exception of the Company's own resources contributions to the guaranty fund which are presented separately in the Statement of financial position.

15 Trade and other payables

	2025	2024
	€'000	€'000
Trade creditors	61	—
Amounts due to group undertakings	191	99
Accruals	763	616
Other taxes and social security	32	81
	1,047	796

Accruals mainly relate to legal fees, employee bonuses, and holiday allowances.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

16 Employee benefits

Share-based transactions

Restricted shares have been reserved for potential issuance as performance-based or time-based restricted shares for certain Company employees. Performance-based shares vest over a three year period based on ICE's financial performance targets set by the ICE Compensation Committee. Time based shares vest based on a three-year vesting schedule. Granted but unvested shares are forfeited upon termination of employment. The grant date fair value of each award is based on the closing share price at the date of grant.

Restricted shares

A table of restricted shares outstanding as at 31 December 2025 and 31 December 2024 is shown below:

	2025	2025	2024	2024
	Number	Weighted average fair value	Number	Weighted average fair value
Outstanding at 1 January	2,624	\$126.24	3,365	\$115.15
Granted	1,518	\$167.12	1,499	\$135.46
Performance grant amendment	55	\$135.46	88	\$107.66
Forfeited	(427)	\$147.40	(667)	\$113.46
Vested	(1,212)	\$124.87	(1,661)	\$116.24
Outstanding at 31 December	<u>2,558</u>	<u>\$147.82</u>	<u>2,624</u>	<u>\$126.24</u>

The total charge for the year relating to restricted shares under the employee share-based payment plans was €191,000 (2024: €169,000) all of which related to equity-settled share-based payment transactions. The weighted average share price during the period for restricted shares vested over the year was US\$163.94 (2024: US\$131.72).

In the case of Employee Stock Purchase Plans ('ESPP') and options granted, fair value is measured using the Black-Scholes pricing model. Under ESPP, employees may purchase ICE shares at a price equal to 85% of the lesser of the fair market value of the shares on the first or the last trading day of each offering period. A share-based payment expense of €11,000 (2024: €13,000) has been recognised for the 15% discount given to participating employees.

Pension scheme

The Company operates defined contribution pension schemes for eligible employees. The assets of the schemes are held separately from those of the Company in independently administered funds. There were no unpaid contributions at 31 December 2025 (2024: €nil).

17 Share capital

	2025	2024	2025	2024
	Number	Number	€'000	€'000
Authorised:				
Equity: Ordinary shares of €1,000 each	10,000	10,000	10,000	10,000
	2025	2024	2025	2024
	Number	Number	€'000	€'000
Allotted, called up and fully paid:				
Equity: Ordinary shares of €1,000 each	7,000	7,000	7,000	7,000

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

18 Share premium

	2025	2024
	€'000	€'000
At 1 January	31,811	26,811
Additions	8,585	5,000
At 31 December	40,396	31,811

In November 2025 the Company's immediate parent company, IntercontinentalExchange Holdings, made a capital contribution to the Company, in connection with ICE Futures Europe's exchange contribution to the Company's own contribution to the guaranty fund pursuant to the applicable clearing services arrangements (see note 11), resulting in an increase in share premium of €8,585,000 (2024: €5,000,000).

19 Financial risk management objectives and policies

Financial risk management objectives

The Company follows the policies approved by the ultimate parent company's board of directors, which provide written principles on interest rate risk, credit risk, the use of non-derivative financial instruments and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed on a continuous basis. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes. The Company has a one-tier board structure ('the Board').

The Board

The Board's responsibilities and activities are governed by Dutch company law. As of 31 December 2025, the composition was as follows:

- Paul Swann, non-executive; Chairman of the Board
- Elizabeth King, non-executive; ICE nominee
- Mark Post, Independent; non-executive
- Hans Brouwer, Independent; non-executive
- Edwin Bons, President/COO ICNL; executive; statutory director

The Board meets at least four times a year in its full composition. Board meetings are generally held at the Company's offices in Amsterdam. Board members are appointed at general shareholder meetings. The tasks, duties and appointment procedure for statutory directors are set out in the Articles of Association of the Company.

The Board is accountable to the Company's shareholders for the performance of its duties and is responsible for the general policy and the strategy, as well as the day-to-day management of the Company, including but not limited to:

- administering the Company's general affairs, operations and finance;
- representing the Company when entering into agreements on its behalf;
- monitoring the Company's compliance with all relevant legislation and regulations and managing risks associated with the Company's business;
- preparing operational and financial objectives and strategies;
- execution of operation plans and applying sound business practices; and
- approving annual budget and financing, operational- and investment plans;

In discharging its duties, the Board aims to take into account the interests of the Company, its business, shareholders, other stakeholders and all other parties (including employees) involved in or with the Company. Additionally, Board members are provided with direct access to senior executives and external advisors.

Director Qualifications

All Statutory Directors and Board members have skills, qualifications, experience and expertise that are essential to meet their responsibilities and obligations. All Board members have been screened and

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

approved by the Dutch Central Bank ('DNB'). Board members must be able to devote a sufficient amount of time to prepare, attend and participate in the Board meetings.

Independence

Some members of the Board during 2025 have an indirect relationship with the Company as a result of their position with companies that hold shares in the ICE Group:

- Elizabeth King, non-executive; Global Head of Clearing & Chief Regulatory Officer of ICE

Audit Committee

The Company has an Audit Committee in place. In 2025 the Committee met 4 times. The composition is as follows:

- Mark Post (Independent; non-executive; Chair)
- Paul Swann (ICE nominee; non-executive; Member)
- Hans Brouwer (Independent; non-executive; Member)

The Committee is allowed to invite certain individuals (Invitees) in a non-voting capacity. In practice these are employees of ICE Internal Audit, External Auditors and/or the Company.

Rules have been set for the way the Committee operates. The Audit Committee assists and advises the Board in decision making and reports its findings to the Board. The Audit Committee convenes at least once a year. The Audit Committee is charged with monitoring the adequacy and effectiveness of the Company's financial reporting, its financial reporting policy and procedures, its internal control framework, risk management, the independent external audit of the financial statements and the performance and evaluation of the external auditor. Given the specific tasks of the Audit Committee, its members have sufficient business, industry and financial expertise to act effectively.

Internal Control Framework

The Board is responsible for developing the Company's strategy and achieving business objectives, operating within relevant rules and regulations, managing the business risks, and is accountable to the General Meeting of Shareholders.

The Company has set a framework for policies regarding internal control processes. The Board is responsible for managing processes within this framework for the Company. The Company is required to prepare annual plans including operating budgets, investment plans and financing requirements. The consolidated business plan is subsequently approved by the Board and the General Meeting of Shareholders, as laid out in the Articles of Association.

New business activities and investments that are outside the scope of the approved business plan require specific approval by the Board and the Shareholders. The Audit Committee monitors the quality of the financial reporting and internal controls. The Audit Committee together with the Board discusses the annual report and the underlying accounting principles on an annual basis.

The Company has aligned its internal control framework with the ICE framework. Features of the framework include periodic analysis of risks to the business objectives of the Company and an integrated system of risk and control monitoring and reporting. This will continue to be developed and improved in the future.

Having assessed its internal risk management and control systems, the Board is of the opinion that the Company's risk management and control systems provide reasonable assurance that this annual report does not contain material inaccuracies.

Externally imposed capital requirements

See note 14 for information on capital requirements imposed on the Company.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Categories of financial instruments

	2025	2024
	€'000	€'000
<i>Financial assets:</i>		
Trade and other receivables	92	155
Member balances: cash relating to margin and guaranty fund contributions	3,000	3,000
Guaranty fund: own contribution	10,460	1,875
Guaranty fund: second own contribution	245	231
Short-term investments	3,209	12,260
Cash and cash equivalents	8,213	1,715
	<u>25,219</u>	<u>19,236</u>
<i>Financial liabilities:</i>		
Trade and other payables	1,047	796
Member balances: cash relating to margin and guaranty fund contributions	3,000	3,000
	<u>4,047</u>	<u>3,796</u>

The fair value approximates the book value of these assets and liabilities, therefore fair value disclosures have not been included. The maximum credit risk amounts to the sum of the financial assets.

Clearing house specific risk

Although the types of risk to which the Company is exposed are similar to those faced by many companies, its core business as a clearing house centers on the explicit assumption of the risks of financial failure and default in the various derivatives markets in which it acts as central counterparty. In order to ensure that defaults of clearing members can be effectively managed, and the integrity of the markets preserved, the Company has adopted specific risk management policies and practices to limit the counterparty credit risk represented by clearing members and to cover the market risk relating to price movements in any contracts that it would have to manage should any of the clearing members default.

The collection of initial margin, in the form of cash and non-cash collateral, the collection of marked-to-market losses and the payment of corresponding gains, and the maintenance of the guaranty fund, expose the Company to a different set of counterparty credit risk, market risks, as well as liquidity and concentration risks.

Counterparty credit risk

The Company seeks to reduce its exposure through a risk management program that includes initial and ongoing financial standards for clearing member admission and continued membership, original and variation margin requirements, and mandatory contributions to the guaranty fund. The amounts that the clearing members are required to maintain in the original margin and guaranty fund accounts are determined by standardised parameters. The Company also has powers of assessment that provide the ability to collect additional funds from the clearing members to cover a defaulting member's remaining obligations up to the limits established under the rules of the Company.

Should a particular clearing member fail to deliver original margin, or to make a variation margin payment, when and as required, the Company may liquidate or hedge the clearing member's open positions and use the clearing member's margin and guaranty fund contributions to make up the amount owed. In the event that those amounts are not sufficient to pay the amount owed in full, the Company may utilise its own guaranty fund contribution followed by the respective guaranty fund contributions of all clearing members on a pro rata basis for that purpose.

Market risk

The Company requires all clearing members to maintain cash on deposit or pledge certain assets, which may include government obligations or certificates of deposit, to guarantee performance on the clearing members' open positions. Such amounts in total are known as "original margin." The Company may make intra-day original margin calls in circumstances where market conditions require additional

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

protection. The daily profits and losses from and to the Company in respect of marking to market open contracts are known as "variation margin". The Company marks all outstanding contracts to market, and therefore pays and collects variation margin, at least once daily, and in some cases multiple times throughout the day. Marking-to-market allows the Company to identify any clearing members that may be unable to satisfy the financial obligations resulting from changes in the prices of their open contracts before those financial obligations become exceptionally large and jeopardize the ability of the Company to ensure financial performance of clearing members' open positions.

Should a Clearing Participant become insolvent, the Company has financial resources which can be used. The Company will apply its own dedicated financial resources into a guaranty fund, also known as "skin in the game", in the event of a member default, prior to the use of clearing fund contributions of non-defaulting clearing members. In January of each calendar year, the Company must commit financial resources which represent 25% of the minimum required capital. Current skin in the game as at 31 December 2025 is €10,460,000 (2024: €1,875,000) and forms part of share premium and the guaranty fund: own contribution balance.

The Company requires that each clearing member make contributions into a fund known as the guaranty fund, which is maintained by the Company. These amounts serve to secure the obligations of a clearing member to the Company to which it has made the guaranty fund contribution and may be used to cover losses sustained by the Company in the event of a default of a clearing member.

The Company also maintains an additional amount of dedicated own resources contribution into the guaranty fund, also known as "second skin in the game" as a recovery tool. The second contribution to the guaranty fund will be used to cover default or non-default losses after the use of clearing fund contributions of non-defaulting clearing members and is the amount calculated at 10% of the annual calculated risk-based capital requirements. Current second skin in the game as at 31 December 2025 is €245,000 (2024: €231,000).

The Company has equal and offsetting claims to and from its clearing members on opposite sides of each cleared contract; this allows the Company to serve as the central financial counterparty on every cleared contract. Accordingly, the Company accounts for this central counterparty guarantee as a performance guarantee. The Company performs calculations to determine the fair value of its counterparty performance guarantee taking into consideration factors such as daily settlement of contracts, margining requirements, other elements of the Company's risk management program, historical evidence of default payments, and estimated probability of potential default payouts. Based on this analysis, the estimated counterparty performance guaranty liability was determined to be nominal and no liability has been recorded.

Non-clearing house specific risk

Market risk - foreign exchange

The Company has transactional currency exposures. Such exposures arise from revenue, costs or expenses generated/incurred in currencies other than the Company's functional currency. The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the United States Dollars ("USD") exchange rate, with all other variables held constant, of the Company's loss before tax (due to changes in the fair value of monetary assets and liabilities).

	Increase/ (decrease) in exchange rate	Increase/ (decrease) in loss before tax	
		2025	2024
	%	€'000	€'000
If the Euro weakens against USD	5	498	28
If the Euro strengthens against USD	(5)	(498)	(28)

Market risk - interest rate risk

The Company is exposed to interest rate risk with the cash and investment balances it holds. The Company's cash is subject to interest rate volatility and is invested on a short to medium-term basis, according to the Company's operating cash requirements.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The carrying amount of financial assets recorded in the financial statements, which is net of any impairment losses, represents the Company's maximum exposure to credit risk. The Company does not hold collateral over these balances.

For cash and cash equivalents, the Company only transacts with entities that are rated the equivalent to investment grade and above. Other financial assets consist of amounts receivable from related parties. The Company's exposure to significant concentration of credit risk on receivables from related parties is detailed in Note 20. For clearing member counterparty credit risk see 'Counterparty credit risk' section.

Liquidity risk management

The Company has an appropriate risk management framework for the management of short, medium and long-term funding and liquidity management requirements. The Company's primary investment policy objective is to provide sufficient liquidity to meet all operational requirements.

Liquidity tables

The following tables detail the Company's remaining contractual maturities for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

2025	Less	3			Total	
	than 1	1 - 3	to 1	1 - 5		
	month	months	year	years	years	
	€'000	€'000	€'000	€'000	€'000	€'000

	<u>4,047</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>4,047</u>

2024	Less	3			Total	
	than 1	1 - 3	to 1	1 - 5		
	month	months	year	years	years	
	€'000	€'000	€'000	€'000	€'000	€'000
Non-interest bearing	796	—	—	—	—	796
Variable interest rate	3,000	—	—	—	—	3,000
	<u>3,796</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>3,796</u>

Capital risk management

The primary objective of the Company's own capital management is to maximise shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and its minimum EMIR regulatory capital requirements. To maintain or adjust the capital structure, the Company may adjust any dividend payments to shareholders, return capital to shareholders or issue new shares if required.

Concentration risk

The Company determines concentration risk by determining the exposure to an individual counterparty and by country for received securities.

ICE Clear Netherlands B.V.
Notes to the Financial Statements
for the year ended 31 December 2025

20 Related party transactions

Transactions with parent and subsidiary companies

Some of the Company's transactions and arrangements are with related parties, the effect of these on the basis determined between the parties at arm's length is reflected in these financial statements. The intercompany balances are interest-free, unsecured and repayable on demand, unless otherwise stated.

The nature of transactions with other companies within the Group is as follows:

	Nature of relationship	Nature of transaction

The ultimate parent company and controlling party is Intercontinental Exchange, Inc., a corporation registered in Delaware, United States.

Intercontinental Exchange, Inc. is the largest group in which the results of the Company are consolidated.

22 Subsequent events

On 21 April 2026 the Company's immediate parent company, IntercontinentalExchange Holdings, made a capital contribution to the Company, resulting in an increase in share premium of €5,000,000.

23 Profit distribution

No dividend is recommended in relation to the financial year 2025. It is proposed that the current year result will be added to the Company's retained earnings.

ICE Clear Netherlands B.V.

Other information

for the year ended 31 December 2025

Company's Articles of Association

Profits shall be at the disposal of the General Meeting of Shareholders for the distribution of a dividend or in order to be added to the reserves or for such other purposes within the Company's objectives as the meeting will decide. In calculating the amount of profit to be distributed in respect of each share, only the amount of the mandatory payments on the nominal shares shall be taken into account.

Independent auditor's report

To: the shareholders of ICE Clear Netherlands B.V.

Report on the audit of the financial statements 2025 included in the annual report

Our opinion

We have audited the accompanying financial statements for the financial year ended 31 December 2025 of ICE Clear Netherlands B.V. based in Amsterdam.

In our opinion, the financial statements give a true and fair view of the financial position of ICE Clear Netherlands B.V. as at 31 December 2025 and of its result for 2025 in accordance with Part 9 of Book 2 of the Dutch Civil Code.

The financial statements comprise:

- The statement of financial position as at 31 December 2025
- The following statements for 2025: the statement of comprehensive income, changes in equity and cash flows
- The notes comprising material accounting policy information and other explanatory information

Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the Our responsibilities for the audit of the financial statements section of our report.

We are independent of ICE Clear Netherlands B.V. (the company) in accordance with the Wet toezicht accountantsorganisaties (Wta, Audit firms supervision act), the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore, we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics for Professional Accountants).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information in support of our opinion

We designed our audit procedures in the context of our audit of the financial statements as a whole and in forming our opinion thereon. The following information in support of our opinion and any findings were addressed in this context, and we do not provide a separate opinion or conclusion on these matters.

Our focus on fraud and non-compliance with laws and regulations

Our responsibility

Although we are not responsible for preventing fraud or non-compliance and we cannot be expected to detect non-compliance with all laws and regulations, it is our responsibility to obtain reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error.

Our audit response related to fraud risks

We identified and assessed the risks of material misstatements of the financial statements due to fraud. During our audit we obtained an understanding of the company and its environment and the components of the system of internal control, including the risk assessment process and management's process for responding to the risks of fraud and monitoring the system of internal control, as well as the outcomes. We refer to section Risk Management of the Director's report for management's (fraud) risk assessment.

We evaluated the design and relevant aspects of the system of internal control and in particular the fraud risk assessment, as well as the code of conduct and whistle blower procedures. We evaluated the design and the implementation and, where considered appropriate, tested the operating effectiveness, of internal controls designed to mitigate fraud risks.

As part of our process of identifying fraud risks, we evaluated fraud risk factors with respect to financial reporting fraud, misappropriation of assets and bribery and corruption. We evaluated whether these factors indicate that a risk of material misstatement due to fraud is present.

We incorporated elements of unpredictability in our audit. We also considered the outcome of our other audit procedures and evaluated whether any findings were indicative of fraud or non-compliance.

We addressed the risks related to management override of controls, as this risk is present in all organizations. For these risks we have, among other things, performed procedures to evaluate whether the selection and application of accounting policies by the company, particularly those relating to subjective measurements and complex transactions, as disclosed in Note 1 'Critical judgements in applying the Company's accounting policies' and 'Significant accounting policies to the financial statements, may be indicative to fraudulent financial reporting. We have also used data analysis to identify and address high-risk journal entries and other adjustments made in the financial reporting process. We evaluated the business rationale (or the lack thereof) of significant extraordinary transactions.

We considered available information and made enquiries of relevant executives, directors, internal audit, those responsible for legal and compliance, and the audit committee.

The fraud risk we identified, enquiries and other available information did not lead to specific indications for fraud or suspected fraud potentially materially impacting the view of the financial statements.

Our audit response related to risks of non-compliance with laws and regulations

We performed appropriate audit procedures regarding compliance with the provisions of those laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements. Furthermore, we assessed factors related to the risks of non-compliance with laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general industry experience, through discussions with management, reading minutes, inspection of internal audit and performing substantive tests of details of classes of transactions, account balances or disclosures.

We also inspected correspondence with regulatory authorities and remained alert to any indication of (suspected) non-compliance throughout the audit. Finally, we obtained written representations that all known instances of non-compliance with laws and regulations have been disclosed to us.

Our audit response related to going concern

As disclosed in section Going concern in Note 1 to the financial statements, the financial statements have been prepared on a going concern basis. When preparing the financial statements, management made a specific assessment of the company's ability to continue as a going concern and to continue its operations for the foreseeable future.

We discussed and evaluated the specific assessment with management exercising professional judgment and maintaining professional skepticism.

We considered whether management's going concern assessment, based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, contains all relevant events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.

Based on our procedures performed, we did not identify material uncertainties about going concern or management's use of the going concern basis of accounting. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause a company to cease to continue as a going concern.

Compliance with SBR Regulatory Technical Standard, including XBRL mark-ups, unaudited

We did not examine the compliance with the requirements of the Regulatory Technical Standard of the SBR domain Trade Register (including the applied eXtensible Business Reporting Language (XBRL) mark-ups) and, accordingly, do not express an opinion thereon.

Report on other information included in the annual report

The annual report contains other information in addition to the financial statements and our auditor's report thereon.

Based on the following procedures performed, we conclude that the other information:

- Is consistent with the financial statements and does not contain material misstatements
- Contains the information as required by Part 9 of Book 2 of the Dutch Civil Code for the management report and the other information as required by Part 9 of Book 2 of the Dutch Civil Code

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements. By performing these procedures, we comply with the requirements of Part 9 of Book 2 of the Dutch Civil Code and the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements.

Management is responsible for the preparation of the other information, including the management report in accordance with Part 9 of Book 2 of the Dutch Civil Code and other information required by Part 9 of Book 2 of the Dutch Civil Code.

Description of responsibilities regarding the financial statements

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards and Part 9 of Book 2 of the Dutch Civil Code. Furthermore, management is responsible for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, management is responsible for assessing the company's ability to continue as a going concern. Based on the financial reporting framework mentioned, management should prepare the financial statements using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. Management should disclose events and circumstances that may cast significant doubt on the company's ability to continue as a going concern in the financial statements.

Our responsibilities for the audit of the financial statements

Our objective is to plan and perform the audit engagement in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not detect all material misstatements, whether due to fraud or error during our audit.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgment and have maintained professional skepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements. The Information in support of our opinion section above includes an informative summary of our responsibilities and the work performed as the basis for our opinion. Our audit included among others:

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion.
The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures
- Evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Communication

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.
