

# List of Eligible Registries

## ICE Futures Europe Corsia Eligible Emissions Units Futures Contracts (2024-2026)

10 December 2024 (supersedes version 1.0 dated 10 April 2024)

### 1.1. Introduction

ICE Futures Europe (the “Exchange”) has made a CORSIA Eligible Emissions Units (2024-2026) Futures contract (“Contract”) available for trading. This Contract is a physically deliverable monthly contract on CORSIA Eligible Emissions Units for the 2024-2026 compliance period (first phase), which have been issued by *Eligible Registries*.

Each Clearing Member with a position open at cessation of trading for a contract month, is obliged to make or take delivery of CORSIA Eligible Emissions Units to or from Registries which have been approved as an Emissions Unit Program by the International Civil Aviation Organization (ICAO) Council to supply CORSIA Eligible Emissions Units for the 2024 – 2026 compliance period (first phase) and have been designated by the Exchange as *Eligible Registries* for the purposes of the Contract. The Exchange determines and publishes the list of Eligible Registries from time to time.

### 1.2. List of Eligible Registries

The Eligible Registries are listed in the table below.

Name Eligible Registry	Website
ACR	<a href="https://acrcarbon.org/">https://acrcarbon.org/</a>
