

# List of Eligible Registries

## ICE Futures Europe Corsia Eligible Emissions Units Futures Contracts

07 April 2026 (supersedes version 3.0 dated 21 August 2025)

### 1.1. Introduction

ICE Futures Europe (the “**Exchange**”) has made a CORSIA Eligible Emissions Units (2024-2026) Futures contract and a CORSIA Eligible Emissions Units (2027-2029) Futures contract (the “**Contracts**”) available for trading. These Contracts are physically deliverable monthly contracts on respectively CORSIA Eligible Emissions Units for the 2024-2026 compliance period (phase 1) and 2027-2029 compliance period (phase 2), which have been issued under ICAO Council Approved Emissions Unit Programmes.

Each Clearing Member with a position open at cessation of trading for a contract month is obliged to make or take delivery of CORSIA Eligible Emissions Units to or from Registries that have been designated by an ICAO Council Approved Emissions Unit Programme and by the Exchange as Eligible Registries for the purposes of the Contract. The Exchange determines and publishes this list of Eligible Registries from time to time.

### 1.2. List of Eligible Emission Unit Programmes and Registries

The Eligible Registries which have been designated by the Exchange for each Compliance Period are listed in the table below.

		CORSIA Eligible Emissions Units (2024-2026) Futures contract	CORSIA Eligible Emissions Units (2027-2029) Futures contract
		Compliance Period	
ICAO Council Approved Emissions Unit Programme	Eligible Registry	Phase 1 (2024-2026)	Phase 2 (2027-2029)
