ISROC Minutes
Full Minutes
The full minutes of the ICE Swap Rate & Term SONIA Reference Rates Oversight Committee meeting held on 20 October 2021 were considered and approved.

Public Minutes
The public minutes of the ICE Swap Rate & Term SONIA Reference Rates Oversight Committee meeting held on 20 October 2021 were considered and approval was delayed pending further review. (N.B. the minutes were approved subsequent to the meeting by email.)

Matters Arising
The Chairman noted that all matters arising were closed or would be covered during the meeting.

Dashboards
IBA presented the ISR and TSRR Dashboards for the period from October to December 2021 and highlighted market events that had impacted the rates over different tenors and currencies.

The Committee discussed the Dashboard.

ISR Liquidity Decline Scenarios
IBA presented various charts showing the number of No Publication if ISR liquidity dropped by certain percentages.

The Committee discussed the presentation and it was noted that the waterfall methodology
proved very robust and that it demonstrated the importance of the methodology’s Level 2. IBA noted that while statistics and averages are a good means to test the methodology’s robustness, liquidity could potentially dry up suddenly in an actual market event scenario rather than see a gradual disappearance.

The Committee agreed and noted the importance of swap dealers continuing streaming even during market volatility.
