Notice 26/048

October 2026 Industry-Wide Disaster Recovery Test

ICE Futures U.S. (IFUS) and ICE Clear U.S. (ICUS) will participate in the industry-wide FIA sponsored Disaster Recovery (DR) test on **Saturday, October 24, 2026**. On this day, futures exchanges, clearing houses, clearing members, and service providers will simultaneously test connectivity and functionality between back-up sites. For IFUS and ICUS, this will involve the activation of the ICE backup data center facility.

Test Registration

Clearing members are required to register for the DR test through the FIA registration portal. To register, open a browser and go to the FIA registration page located [here](#) then complete and submit the provided registration form.

Pre-Testing (Ping testing) - Saturday, September 26, 2026

Clearing members may complete a pre-test connectivity on Saturday, September 26, 2025 (9:00 AM ET – 12:00 PM ET).

Prior to performing the MQ ping test, clearing members should contact ICE through the ICE Help Desk at (770) 738-2101.

Clearing members that participate in a Pre / Ping Test must complete and return a Pre-Test Checklist to ICE Clear U.S. Please email the checklist to iceclearus@ice.com.

Test Day -Saturday, October 24, 2026

Clearing members that need DR test support should contact ICE through the ICE Help Desk at (770) 738-2101. For trade inquiries, select option #1, then #1, for clearing inquiries, select #2, then #1.

Trade Entry

9:00 AM ET – 12:00 PM ET

ICE will switch the trading platform to its back-up configuration prior to the test. Clearing members and traders will be free to enter trades into the WebICE electronic trading platform for Sugar #11 and US Dollar Index products on test day starting at 9:00 AM ET, continuing through 12:00 PM ET. Users will log in using their WebICE production user ID's and passwords.

Post Trade Management

Trade executions and allocations will be visible in ICE FEC. Clearing members can use this trade data to perform trade updates, give-out allocation, and give-in claim activities. All clearing applications (FEC, ECS, MFT) should be accessed using ICUS production URLs.

Trade Messaging

FIXML MQ Message Traffic – Test trade and give-up activity will be reflected in the FIXML real time trade feed to clearing member's designated MQ connection.

File Transfers – MFT

Match-Off File – Production Match-Off files from Friday, October 23, 2026, trading day will be available for download within MFT on Test Day.

GCM & Large Trader - Clearing members can send in GCM and Large Trader files to MFT at any time between 9:00 AM and 12:00 PM ET on test day. These files should be the same production files that clearing members originally sent in for Friday, October 23, 2026, trading day.

ICE Risk Model files will also be available to download through ICUS' MFT application.
