32. TC5 FFA-ARABIAN GULF TO JAPAN (PLATTS) AVERAGE PRICE OPTION³¹

Description	The TC5 FFA Average Price Option is based on the underlying TC5 FFA Future (WMJ) and will automatically exercise into the settlement price of the Future on the day of expiry of the options contract.
Contract Symbol	WMJ
Hedge Instrument	The delta hedge for the TC5 FFA Average Price Option is the TC5 FFA Future (WMJ).
Contract Size	1,000 metric tonnes
Unit of Trading	Any multiple of 1,000 metric tonnes
Currency	US Dollars and cents
Trading Price Quotation	One cent (\$0.01) per metric tonne
Settlement Price Quotation	One tenth of one cent (\$0.001) per metric tonne
Minimum Price Fluctuation	One tenth of one cent (\$0.001) per metric tonne
Last Trading Day	Last Trading Day of the contract month
Option Type	Options are average priced and will be automatically exercised into the TC5 FFA Future on the expiry day if they are "in the money". The Future resulting from exercise immediately goes to cash settlement relieving market participants of the need to concern themselves with liquidation or exercise issues. If an option is "out of the money" it will expire automatically. It is not permitted to exercise the option on any other day or in any other circumstances than the Last Trading Day. No manual exercise is permitted.
Option Premium/Daily Margin	The TC5 FFA Average Price Options are premium-paid-upfront options. The traded premium will therefore be debited by the Clearing House from the Buyer and credited to the Seller on the morning of the Business Day following the day of trade. Members who are long premium-paid-upfront options will receive a Net Liquidating Value (NLV) credit to the value of the premium which is then used to offset the initial margin requirement flowing from both these options and positions in other energy contracts. Members who are short premium-paid-upfront options will receive an NLV debit in addition to their initial margin requirement. NLV is calculated daily with reference to the settlement price of the option.
Expiry	16:30 London Time.
	Automatic exercise settings are pre-set to exercise contracts which are one minimum price fluctuation or more "in the money" with reference to the relevant reference price. Members cannot override automatic exercise settings or manually enter exercise instructions for this contract. The reference price will be a price in USD and cents per metric tonne
	equal to the arithmetic average of the settlement prices of the Platts TC5 FFA for the contract month. When exercised against, the Clearing House,

³¹ Inserted 24 June 2013

	at its discretion, selects sellers against which to exercise on a pro-rata basis.
Strike Price Intervals	This contract will support Custom Option Strikes with strikes in increments of \$0.01 within a range of \$5 to \$50. This range may be revised from time to time according to future price movements. The atthe-money strike price is the closest interval nearest to the previous business day's settlement price of the underlying contract.
Contract Series	Up to 48 consecutive months
Final Payment Dates	Two Clearing House Business Days following the Last Trading Day
business days	Publication days for Platts Clean Tankerwire

33. TD3C FFA - MIDDLE EAST GULF TO CHINA (BALTIC) AVERAGE PRICE OPTION³²

	T
Description	The TD3C FFA Average Price Option is based on the underlying TD3C FFA Future (TDL) and will automatically exercise into the settlement price of the Future on the day of expiry of the options contract.
Contract Symbol	TDL
Hedge Instrument	The delta hedge for the TD3C FFA Average Price Option is the TD3C FFA Future (TDL)
Contract Size	1,000 metric tonnes
Unit of Trading	Any multiple of 1,000 metric tonnes
Currency	US Dollars and cents
Trading Price Quotation	One tenth of one cent (\$0.001) per metric tonne
Settlement Price Quotation	One hundredth of one cent (\$0.0001) per metric tonne
Minimum Price Fluctuation	One hundredth of one cent (\$0.0001) per metric tonne
Last Trading Day	Last Trading Day of the contract month. Note: the December contract will expire on the 24th of December or the previous business day where the 24th of December is a non-working day.
Option Type	Options are average priced and will be automatically exercised into the TD3C FFA Future on the expiry day if they are "in the money". The Future resulting from exercise immediately goes to cash settlement relieving market participants of the need to concern themselves with liquidation or exercise issues. If an option is "out of the money" it will expire automatically. It is not permitted to exercise the option on any other day or in any other circumstances than the Last Trading Day. No manual exercise is permitted.
Option Premium/Daily Margin	The TD3C FFA Average Price Option is a premium-paid-upfront option. The traded premium will therefore be debited by the Clearing House from the Buyer and credited to the Seller on the morning of the Business Day following the day of trade. Members who are long premium-paid-upfront options will receive a Net Liquidating Value (NLV) credit to the value of the premium which is then used to offset the initial margin requirement flowing from both these options and positions in other energy contracts. Members who are short premium-paid-upfront options will receive an NLV debit in addition to their initial margin requirement. NLV is calculated daily with reference to the settlement price of the option.
Expiry	16:30 London Time.
	Automatic exercise settings are pre-set to exercise contracts which are one minimum price fluctuation or more "in the money" with reference to the relevant reference price. Members cannot override automatic exercise settings or manually enter exercise instructions for this contract. The reference price will be a price in USD and cents per metric tonne based on the average of the assessments as made public by the Baltic Exchange for the relevant route for each business day (as specified below) in the determination period.
Strike Prices	This contract will support Custom Option Strikes with strikes in increments of \$0.01 within a range of \$1 to \$25. This range may be revised from time to time according to future price movements. The at-

³² Inserted 22 January 2018

	the-money strike price is the closest interval nearest to the previous business day's settlement price of the underlying contract.
Contract Series	Up to 60 consecutive months
Final Payment Dates	Two Clearing House Business Days following the Last Trading Day
business days	Publication days for Baltic Exchange
MIC Code	IFEU
Clearing Venue	ICEU

34. TD7 FFA - UK NORTH SEA TO CONTINENT (BALTIC) AVERAGE PRICE OPTION³³

Description	The TD7 FFA Average Price Option is based on the underlying TD7 FFA Future (WNC) and will automatically exercise into the settlement price of the Future on the day of expiry of the options contract.
Contract Symbol	WNC
Hedge Instrument	The delta hedge for the TD7 FFA Average Price Option is the TD7 FFA Future (WNC).
Contract Size	1,000 metric tonnes
Unit of Trading	Any multiple of 1,000 metric tonnes
Currency	US Dollars and cents
Trading Price Quotation	One cent (\$0.01) per metric tonne
Settlement Price Quotation	One tenth of one cent (\$0.001) per metric tonne
Minimum Price Fluctuation	One tenth of one cent (\$0.001) per metric tonne
Last Trading Day	Last Trading Day of the contract month.
	Note: the December contract will expire on the 24th of December or the previous business day where the 24th of December is a non-working day.
Option Type	Options are average priced and will be automatically exercised into the TD7 FFA Future on the expiry day if they are "in the money". The Future resulting from exercise immediately goes to cash settlement relieving market participants of the need to concern themselves with liquidation or exercise issues. If an option is "out of the money" it will expire automatically. It is not permitted to exercise the option on any other day or in any other circumstances than the Last Trading Day. No manual exercise is permitted.
Option Premium/Daily Margin	The TD7 FFA Average Price Options are premium-paid-upfront options. The traded premium will therefore be debited by the Clearing House from the Buyer and credited to the Seller on the morning of the Business Day following the day of trade. Members who are long premium-paid-upfront options will receive a Net Liquidating Value (NLV) credit to the value of the premium which is then used to offset the initial margin requirement flowing from both these options and positions in other energy contracts. Members who are short premium-paid-upfront options will receive an NLV debit in addition to their initial margin requirement. NLV is calculated daily with reference to the settlement price of the option.
Expiry	16:30 London Time.
	Automatic exercise settings are pre-set to exercise contracts which are one minimum price fluctuation or more "in the money" with reference to the

³³ Inserted 24 June 2013

	relevant reference price. Members cannot override automatic exercise settings or manually enter exercise instructions for this contract. The reference price will be a price in USD and cents per metric tonne equal to the arithmetic average of the settlement prices of the Baltic TD7 FFA for the contract month. When exercised against, the Clearing House, at its discretion, selects sellers against which to exercise on a pro-rata basis.
Strike Price Intervals	This contract will support Custom Option Strikes with strikes in increments of \$0.01 within a range of \$1 to \$25. This range may be revised from time to time according to future price movements. The atthe-money strike price is the closest interval nearest to the previous business day's settlement price of the underlying contract.
Contract Series	Up to 48 consecutive months
Final Payment Dates	Two Clearing House Business Days following the Last Trading Day
business days	Publication days for Baltic Exchange

35. CAPESIZE TIMECHARTER (BALTIC) FREIGHT FUTURE³⁴

Description	A monthly cash settled freight future based on the Capesize Timecharter Index as made public by the Baltic Exchange.
Contract Symbol	TCC
Contract Size	1 day of time charter
Unit of Trading	Any multiple of 1 day of time charter
Currency	US Dollars and cents
Trading Price Quotation	\$1.00 per Charter Day
Settlement Price Quotation	One cent (\$0.01) per Charter Day
Minimum Price Fluctuation	One cent (\$0.01) per Charter Day
Last Trading Day	Last Trading Day of the contract month
	Note: the December future will expire on the 24th of December or the previous business day where the 24th of December is a non-working day.
Floating Price	In respect of daily settlement, the Floating Price will be determined by ICE using price data from a number of sources including spot, forward and derivative markets for both physical and financial products.
Final Settlement Price	In respect of final settlement, the Floating Price will be a price in USD and cents per day based upon the average of the spot assessments as made public by the Baltic Exchange for the Capesize Timecharter Index for each business day (as specified below) in the determination period.
Contract Series	Up to 48 consecutive months
Final Payment Dates	Two Clearing House Business Days following the Last Trading Day
business days	Publication days for Baltic Exchange
MIC Code	IFEU
Clearing Venue	ICEU

³⁴ Amended 01 November 2023
