March 3, 2026

### FCOJ Futures Daily Price Limit Expands To 20 Cents Per Pound

Effective with the start of trading for trade date Wednesday, March 4, 2026, the Daily Price Limit for all FCOJ futures contract delivery months subject to a limit will expand to 20 cents per pound above and below the prior day Settlement Price for the respective delivery month.

The Daily Price Limit is consistent with FCOJ Rule 13.08, which provides for an Initial Price Limit (“IPL”) based on the absolute price level of the determining futures delivery month, and for a 10-cent expansion above that IPL on the trading day following any day on which the determining futures delivery month settles at a level that is at or in excess of the IPL then in effect.

In accordance with that Rule, the IPL is now 10 cents per pound based on the settlement price of the May 2026 contract today. Since that contract settled at a level that was at or through the IPL, the 10-cent expansion is triggered - resulting in the 20 cent Daily Price Limit for the next trading day.

The text of FCOJ Rule 13.08 can be found [here](#).

***The Exchange now provides Daily Price Limit information directly on its website, available [here](#). In the near future, the Exchange will discontinue the Daily Notice updates and will make a formal announcement before doing so. Once this transition is complete, participants will be able to view the current Daily Price Limit directly in the table on the webpage.***
