Date: January 7, 2014

IMPORTANT: CHECK BOX IF CONFIDENTIAL TREATMENT IS REQUESTED.

ORGANIZATION ICE Clear Europe Limited

FILING AS A: DCM SEF DCO SDR ECM/SPDC

TYPE OF FILING

• Rules and Rule Amendments

- Certification under § 40.6 (a) or § 41.24 (a)
- “Non-Material Agricultural Rule Change” under § 40.4 (b)(5)
- Notification under § 40.6 (d)
- Request for Approval under § 40.4 (a) or § 40.5 (a)
- Advance Notice of SIDCO Rule Change under § 40.10 (a)

• Products

- Certification under § 39.5(b), § 40.2 (a), or § 41.23 (a)
- Swap Class Certification under § 40.2 (d)
- Request for Approval under § 40.3 (a)
- Novel Derivative Product Notification under § 40.12 (a)

RULE NUMBERS

ICE Clear Europe List of Permitted Cover and Limits on Collateral.

DESCRIPTION

ICE Clear Europe is amending its List of Permitted Cover and Limits on Collateral to permit Clearing Members to post certain Japanese government bonds, KfW bonds and European Investment Bank notes to ICE Clear Europe as permitted cover to meet initial margin, original margin and certain other margin requirements, including delivery margin requirements.

January 7, 2014

Ms. Melissa Jurgens

Re: ICE Clear Europe Self-Certification Pursuant to Commission Rule 40.6

Dear Ms. Jurgens:

ICE Clear Europe Limited (“ICE Clear Europe”), a registered derivatives clearing organization (“DCO”) under the Commodity Exchange Act, as amended (the “Act”), hereby submits to the Commodity Futures Trading Commission (the “Commission”), pursuant to Commission Rule 40.6 for self-certification, the attached updated List of Permitted Cover and Limits on Collateral. The changes are to become effective on the business day following the tenth business day after submission, or such later date as ICE Clear Europe may determine.

The purpose of the changes is to permit ICE Clear Europe Clearing Members to post additional categories of securities to ICE Clear Europe as permitted cover (the “New Permitted Cover”) to meet initial margin, original margin and certain other margin requirements, including delivery margin requirements. The changes will provide ICE Clear Europe Clearing Members with a greater range of high-quality collateral that can be posted to satisfy certain margin requirements. The New Permitted Cover will not be accepted to satisfy variation margin requirements or guaranty fund requirements.

Specifically, the New Permitted Cover will include (i) qualifying Japanese Government Bonds and Japanese Treasury Discount Bills; (ii) qualifying debt issued by the KfW, a German government-owned development bank, that is guaranteed by the German federal government; and (iii) qualifying Euro Area Reference Notes issued by the European Investment Bank, a European Union development bank owned by the EU member states.

ICE Clear Europe believes that the New Permitted Cover is of minimal credit risk comparable to that of other sovereign debt currently accepted by ICE Clear Europe as permitted cover for margin obligations. ICE Clear Europe further believes that the New Permitted Cover has

demonstrated low volatility, including in stressed market conditions. Based on its analysis of the New Permitted Cover and its volatility and other characteristics, ICE Clear Europe has established initial valuation haircut levels for the New Permitted Cover, and will review and modify such haircuts from time to time in accordance with the Rules and procedures. In addition, each type of New Permitted Cover may only be used to satisfy margin requirements up to a specified concentration limit. Consistent with existing ICE Clear Europe haircut policies, an additional haircut will apply where New Permitted Cover is used to cover a margin requirement denominated in a different currency, to cover the exchange rate risk.

The acceptance of the New Permitted Cover is potentially relevant to the following core principles: (B) Financial Resources, (D) Risk Management and (L) Public Information, and the applicable regulations of the Commission thereunder:

- *Financial Resources.* ICE Clear Europe believes that the New Permitted Cover will be an acceptable financial resource to serve as margin to support cleared contracts, on the terms and subject to the concentration limits proposed, in accordance with Commission Rule 39.11. As noted above, ICE Clear Europe believes that the New Permitted Cover presents minimal credit and volatility risk, and in general presents similar characteristics to other types of sovereign debt obligations currently accepted as margin by ICE Clear Europe.
- *Risk Management.* ICE Clear Europe believes that it will be able to manage the risks associated with acceptance of the New Permitted Cover as margin as described above, in accordance with the requirements for initial margin assets in Commission Rule 39.13(g)(10). The New Permitted Cover itself has a risk profile similar to that of other sovereign debt ICE Clear Europe accepts for collateral, and ICE Clear Europe will be able to manage the risks of the New Permitted Cover through its existing Rules and risk management policies and procedures. In addition, acceptance of New Permitted Cover will provide clearing members with additional flexibility as to the forms of margin that can be posted, consistent with ICE Clear Europe's risk management requirements.
- *Public Information.* Concurrent with the filing of this submission, ICE Clear Europe has posted a notice of pending certification and a copy of this submission on its website at <https://www.theice.com/notices/Notices.shtml?regulatoryFilings> in accordance with Rule 40.6 and the public information requirements of Core Principle L and Commission Rule 39.21.

ICE Clear Europe hereby certifies that the changes comply with the Act and the Commission's regulations thereunder.

There were no opposing views expressed to ICE Clear Europe by governing board or committee members, members of ICE Clear Europe or market participants that were not incorporated into the amendment.

If you or your staff should have any questions or comments or require further information regarding this submission, please do not hesitate to contact the undersigned at patrick.davis@theice.com or +44 20 7065 7738, Dee Blake, Director of Regulation, at

dee.blake@theice.com or +44 20 7065 7752 or Paul Swann, President & Chief Operating Officer, at paul.swann@theice.com or +44 20 7065 7700.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Patrick Davis', written in a cursive style.

Head of Legal and Company Secretary

ICE CLEAR EUROPE

List of Permitted Cover and Limits on Collateral

June 2013

Permitted Collateral & Haircuts

The following table lists the permitted cover ICE Clear Europe Members may lodge to meet Original Margin and other requirements (e.g. delivery margin). For the avoidance of doubt, Variation Margin must be paid in cash in the currency of the contract.

Please note that ICE Clear Europe will only accept the following as collateral for contributions to the Energy and CDS Guaranty Funds:

- Energy Business: USD cash and US Government Securities
- CDS business: EUR Cash and European Government Securities

Additional Restrictions and Limits

In addition to the haircuts listed above, the following additional limits and restrictions also apply to eligible collateral:

Collateral Type	Eligible Market (s)	Eligible Requirements	Collateral Limits & Restrictions
Cash	Energy, CDS, LIFFE	Original Margin, Guaranty Fund	A minimum of 50% of a Clearing Member's Guaranty Fund requirement must be funded in cash. (Further restrictions apply – see Section 14 of the Finance procedures)
Emissions Allowances	Energy	Original Margin	EUAs; a maximum of 30% of a Clearing Member's total margin requirement. CERs; a maximum of 30% of a Clearing Member's total margin requirement.
Gold	Energy, CDS, LIFFE	Original Margin	The lower of 250mm USD or 30% of the Clearing Member's total margin requirement.
Government Bonds	Energy, CDS, LIFFE	Original Margin, Guaranty Fund	See restrictions detailed below.
Letters of Credit (LCs) & Pass Through LCs	Energy	Original Margin	50% of a Clearing Member's Original Margin requirement (further restrictions apply – see section 12 of the finance procedures).
Certificate of Deposit (CD)	Energy, CDS, LIFFE	Original Margin	May be accepted on an exceptional basis for a limited range of issuers. The Clearing House will assess each request individually and confirm or decline acceptance on a case by case basis.
Triparty Collateral	Energy, CDS, LIFFE	Original Margin	Haircuts will apply on the collateral types within the program but not on Triparty Collateral as a type itself. The Triparty Collateral Service will be provided by Euroclear Bank, Brussels.

Absolute and Relative Limits for Government Bond Collateral

The following table outlines detailed limits and restrictions relating to sovereign issued securities:

Issuer	Absolute Limit (mm notional of the currency of the bond)	Relative Limit (% of Margin Requirement)
Japanese Government	100,000	10%
Republic of Austria	45	25%
Kingdom of Belgium	85	25%
Canadian Government	150	25%
Republic of Finland	35	25%
Republic of France	500	25%
Federal Republic of Germany	800	25%
Republic of Italy	350	25%
Kingdom of the Netherlands	150	25%
Republic of Spain	150	25%
Kingdom of Sweden	80	25%
Swiss Confederation	125	25%
United Kingdom	2,800	25%
